Nano Protector

Offers innovative top class protection based on nanotechnology. Its formula, revolutionary in the market, allows you to protect your sneakers from snow, water or dirt, thanks to its waterproof and dirt repellent effect. In addition, thanks to the improvement made in its properties the product is suitable for metalized leather and synthetic leather. In addition, it can be used on natural leather, suede, nubuck and breathable and waterproofing like High TECH fibers as Omni Tech, Gore-Tex, Hyvent or Inner Plus.

Surfaces

Use

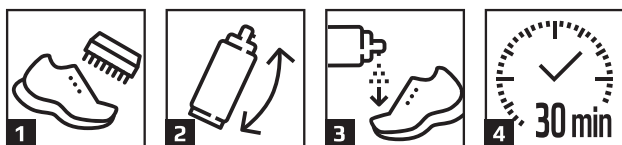

Description

The protector, thanks to its formulation based on nanotechnology, offers waterproof and dirt repellent effect. When Sneakers Nano Protector has been applied on sneakers water and dirt will not adhere to the fibers, and will instead run off like pearls (called the "lotus effect"). Material stays breathable and, when regularly used, their surface stays looking like new for longer.

Presentation

PACKAGE	BOX UNITS	BOX SIZES	BOX WEIGHT	PALLET UNITS	EAN CODE
Metal / 250 ml. / 8.8. fl. oz.	12	22,5x17,5x 22,2 cm	3,10 kg.	2.304	8427457615007
